1958 CHRYSANTHEMUM INTRODUCTIONS

Name and Description—3 at Dz. Rate			Height in inches	Blooming Date	Price	
D. Double	SD. Semi-Double	S. Single			Ea.	Doz.
BANTAM YELLOW A charming midget cushion almost rug-like—a lighter "Bowl O' Gold." Delightful 2½ inch bloom indescribably shaded primrose to mimosa yellow. Very tasteful, extremely low, surprising individual flower.				12 Sept. 25	1.00	10.00
LADY FAIR Greatly admired by midwestern testers. Beautiful 3 inch blossoms, temptingly recurved, in entrancing orchid pink perfection. Deep lavender buds, then gently tousled cactus form. Wonderful to disbud, exquisite in bouquets.				28 Oct. 1	1.00	10.00
LYNNE A pink duplex turning salmon pink with age. 4 inch natural, larger disbudded. Older the bloom the more beautiful it becomes.				30 Oct. 23	1.00	10.00
SILVERY MOON (Carter-Coles) Lemon yellow Dec. 4 to 4½ inch bloom. Easy to grow, hard to beat on the show table Don't miss it. Disbuds well.....				30 Oct. 12	1.25	12.50

LOOK FOR OUR ORIGINATIONS IN THE NATIONAL SHOW IN PORTLAND, OREGON - OCT. 30, NOV. 1 & 2

We have imported a number of Chrysanthemums from Mr. Yoshiald Ogawa, direct from Japan. We are offering them for the first time in 1958. Incurved, Spider, Cascade, Mobiled Petaled Mums, some petals recurved, incurved and spoon on the same flower. There is no use trying to tell you of the beauty of these wonderful flowers; they are so far ahead of any I have seen you will just have to grow them yourself to show your friends and neighbors and win ribbons at the shows.

If one wants the best of anything, one just goes to the source; and that is just what we did in procuring these wonderful Chrysanthemums. Order early, as we reserve the right to return money if sold out of any variety.

CULTURAL SUGGESTIONS

DISBUD EXHIBITION AND SPIDERY TYPES

SOIL PREPARATION. Chrysanthemums do best in a rich deeply cultivated soil. Incorporation of humus matters such as barnyard manure, decayed compost, peat moss, etc., is beneficial. In addition, superphosphate at the rate of 5 lbs. per 100 square feet is broadcasted and spaded to a depth of 12 to 15 inches early in the spring.

STOPPING. The center of the main growth is nipped off when about 6 inches tall and second stopping is generally required around end of June if planted early. Four to six lateral growths are allowed to rise from the last pinching.

DISBUDDING. All sub-lateral branches are removed at regular intervals of about 10 days apart. Many exhibition varieties will produce "First Crown Buds" or "Leaf Buds," as commonly known, in July which are usually removed and next buds retained.

SELECTION OF BUDS. The first bud produced is called the "Crown bud" and is distinguished by being surrounded with leaves. The "Terminal bud" appears later in clusters surrounded with flower buds. The procedure of "taking buds" depends very largely on the variety and no fast rule can be given.

FERTILIZING. About 3 applications of commercial fertilizer, such as "Vigoro," at the rate of 3 to 5 lbs. per 100 square feet would be sufficient. No feeding is done after the buds begin to show color.

Folks: You will not find any pictures in this catalog. We will leave that to those who charge more. You all know it costs a lot to have pictures made and reproduced in a catalog. So we will leave that to others. But we do give the same quality at lower price.

THANK YOU

You are invited to become a Member of
The National Chrysanthemum Society, Inc., U. S. A.

A Society organized by and for the Amateur Grower, to increase general interest in the cultivation and improvement of the Chrysanthemum.

MEMBERSHIP GIVES YOU THE FOLLOWING:

1. A QUARTERLY BULLETIN

Devoted to the interest of the amateur chrysanthemum grower. The Bulletin gives a wealth of information about chrysanthemum culture, for all sections of the country. It also contains human interest stories and contests.

2. HANDBOOKS.

From time to time, Handbooks on various subjects of practical, up-to-date information on all aspects of interest to amateur growers are published. Members may purchase these handbooks at reduced prices. This information not available elsewhere.

3. MEMBERSHIP LIST.

Each year a membership list is published in our June Bulletin which will enable our members to become acquainted either by personal contact or through correspondence.

4. ANNUAL SHOW & MEETING

The annual show designed for amateur growers enables them to satisfy their competitive instincts as well as to become acquainted with new varieties. The annual meeting is truly an outstanding event. We hear excellent speakers and spend an enjoyable weekend with fellow chrysanthemum hobbyists.
